## **Buffaloops Looking for artists to feature samples and loops!**

*Feature your work on a national platform, and earn cash!*

Buffaloops launched a platform providing high-quality royalty-free instrument samples, loops, and drum kits, made with industry-leading gear, tools, and software. Our audio is made by experienced producers and trailblazing artists, to bring quality samples that can be used to create custom music, whether it be a personal homemade track, or a billboard top 100 song.

The founding producers and artists at Buffaloops started out in Buffalo, NY, and have since traveled the world bringing expertly produced and mixed music to public ears. Our producers have worked in some of the music capitals of the country, including Atlanta and Los Angeles, at leading record labels. The Buffaloops producers have worked with some of the leading artists in the world today, including DaBaby, Future, J Balvin, YG, ELHAE, Yuna, Young Thug, Bebe Rexha, Fabolous, Just Blaze, and more.

Buffaloops is looking for unique artists to provide loops and samples for our platform. If you are an instrumentalist (guitar, bass, drums, keyboard, other) or a vocalist, we want to hear from you! Our professional producers will review and mix your work in our studio, and package it in a featured pack, and you will earn cash for every pack sold! If you live in the Buffalo, NY area, we may be able to schedule you for in-studio time as well, to record loops directly in our studio!

Get your sound heard now! Contact us at [info@buffaloops.com](mailto:info@buffaloops.com) to get started!

And, check out [buffaloops.com](https://www.buffaloops.com) today, and get a free sample pack on us!
